US\$ 720,000 or Php 36 Million

(estimated, as of December 2000)

Gross Output

Gold: 144.74 MT valued at Php 167.53

Million (production report from 1999 to 2015)

Export

Php 167.71 Million Total estimated

value of gold. (production report from 1999 to 2015)

The minerals extracted by the mining company are being purchased by local markets in the country

Employment

103 average employed from 1999 to 2015 (estimated, December 2017)

While estimates vary, it is conservatively projected that for every basic job in the mining company about four (4) ancillary and indirect jobs may be generated in the upstream and downstream sectors.

The emergence of small enterprises/businesses in the host and neighboring communities due to the presence of mining operations in the area, and the livelihood projects supported by the mining companies, which generate both employment and income, cannot be discounted. These economic activities will naturally stimulate the local economy.

Taxes and Fees Paid

Php 3.7 Million (as of December 2017)

Amount of national and local taxes, fees and royalties generated and contributed to the Philippine economy by operating mines in the province.

Environmental Protection and Rehabilitation

The Philippine government ensures the adequate protection of the environment, before, during mining operations and beyond the life of the mine.
